

To whom it may concern;

Based on the below request from director of Eshet Children and Youth Development Organization (ECYDO), US Embassy Addis Community Grants Office is writing this e-mail to confirm that ECYDO successfully implemented a project entitled “Let’s Hear it for the boys” focused on prevention of Gender-Based Violence and HIV/AIDS, through active involvement of boys in schools in Arsi zone, Asella city Administration. The project was implemented in three targeted schools in Asella town and made a significant contribution in creating awareness and changing the attitudes of the youth, school community and wider population in the project area.

The organization demonstrated good performance and fully complied to reporting requirements of Community Grants Office.

We wish them good luck in their efforts to address GBV and SRH issues to change the lives of Ethiopians.

Regards;

Wondimu Regaa
