To whom it may concern,

This letter is to formally acknowledge that Eshet, Children and Youth Development Organization Ethiopia was the recipient of The Girl Generational Grant Fund programme, implemented by Options Consultancy and funded by the Human Dignity Foundation.

Eshet developed and implemented the project, Three Generations proud to say no to FGM, from 1st August 2018 through to the DATE. The project contract value was ETB 277,750, with GBP 7,626 distributed.

The organisation performed well under the six-month granting period and displayed a very thorough and substantial level of activity during this period. Eshet reported a high reach and impact within its operating communities and many differing activities, aiming to target not just one audience but many.

During the mid-way performance monitoring in November 2018, Eshet's financial, reporting and activities were monitored. No significant issues were identified in all key areas for review. Where recommendations were given, this was taken into consideration and reflected positively in the final reporting period.

The grantee always provided a very high level of standard in reporting, particularly with the use of specific activity reports and examples, figures and detail of participant numbers and overall reach of the project. Eshet was very responsive and proactive grantee and partner organisation to The Girl Generation Grants Fund.

If you require any further detail, please do not hesitate to reach out.

Kind Regards,

A handwritten signature in black ink, appearing to read "Phillida Mason".

Phillida Mason

Assistant Programme Manager
