**TO WHOM IT MAY CONCERN**

This letter has been officially issued to confirm that Eshet Children and Youth Development Organization (ECYDO) has been one of Youth Network for Sustainable Development (YNSD) recipients of the grant, under the program called Youth Challenge Initiative (YCI).

The Youth Challenge Initiative (YCI) project is aimed at enhancing knowledge on sexual and reproductive health rights (SRHR) among adolescent and youth, and improving service quality by working closely with service providers. Since 2017 to present, the project has been implemented in Addis Ababa and Adama. ECYDO along with other 5 youth lead and focused organizations has introduced the new approach called Social Networking Model (SNM) for SRHR intervention which was consequently adopted by other partners in the implementing coalition. The model uses cascading system of peer-to-peer trainers. The project contract value has ETB 4,200,750.00 with USD 200,626 distributed, from which ECYDO managed 709.010.00.

ECYDO has provided us with high quality reports with important monitoring and evaluation data giving a good, clear overview of the project progress and results. ECYDO managed to collect valuable stories throughout its work with young people that serve as input for further activities.

It has established financial, planning, monitoring and evaluation procedures and policies, and highly values ethical standards.

ECYDO has been a reliable partner to the Youth Network for Sustainable Development (YNSD). We remain available for any further inquiries you may have.

With Best regards,

  
Esayas Alemayehu  
Executive Director
